*The University of Hong Kong*  
*Graduate Employment Survey, 2002*  
*( Bachelor's Degree )*

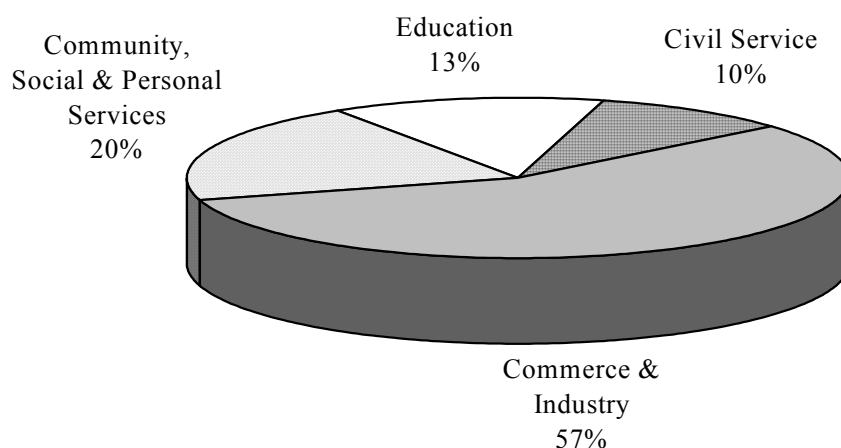

**I. Introduction**

1. This annual survey was conducted in late November, 2002 by post. Graduates who did not reply in writing were interviewed on the telephone. Through both means, information was obtained from 2,139 graduates, i.e. 81% of the graduating population of 2,628.
2. The situation reported by the respondents is as it was in December, 2002 or six months after graduation and covers all the full-time bachelor's degree. Degree programmes are classified into ten Faculties. These are: the Faculty of Architecture, Arts, Business and Economics, Dentistry, Education, Engineering, Law, Medicine, Science and Social Sciences.
3. In the appendices, readers will find information on:
  - . employment situations;
  - . distribution by employment sector;
  - . distribution by occupation;
  - . monthly income by employment sector;
  - . monthly income by occupation;
  - . major occupations by Faculty; and
  - . monthly income by Faculty.
4. Other information, such as job satisfaction, relevance of work to study, further study and detailed information about the situation of graduates in specific study programmes, is not presented here but is available on request.

## II. Situation in 2002

5. Unemployment rate rises from 2.3% in 2000 to 3.5% in 2001 and then drops to 0.8% in 2002.
6. Two-fifth of this 0.8% (or 7 out of the 18 graduates) had in fact been successful in securing a job offer but declined to accept, or resigned from the post, to await better opportunities. Hence, the real unemployment rate is only 0.5%, or 11 persons.
7. The number of graduates pursuing further studies increased by around 6% (from 20% in 2001 to 26% in 2002).
8. With the rise in further studies, a corresponding drop was registered in the employment rate, which decreased slightly from 75% in 2001 to 72% in 2002.
9. Median monthly gross income decreased by 17% from \$13,217 in 2001 to \$11,000 in 2002.
10. Commerce and industry continued to be the largest employment sector.

***Fig. 1. Employment sectors, 2002 Bachelor's Degree graduates***

11. The largest occupational groups in 2002 were:

. Engineers	10%
. Teachers	9.9%
. Medical Doctors	6.9%
. System Analysts/Computer Programmers	6.6%
. Marketing/Sales Executives	5.9%
. Accountants/Auditors	4.4%
. Architects/Surveyors	4.4%
. Nurses	4.1%

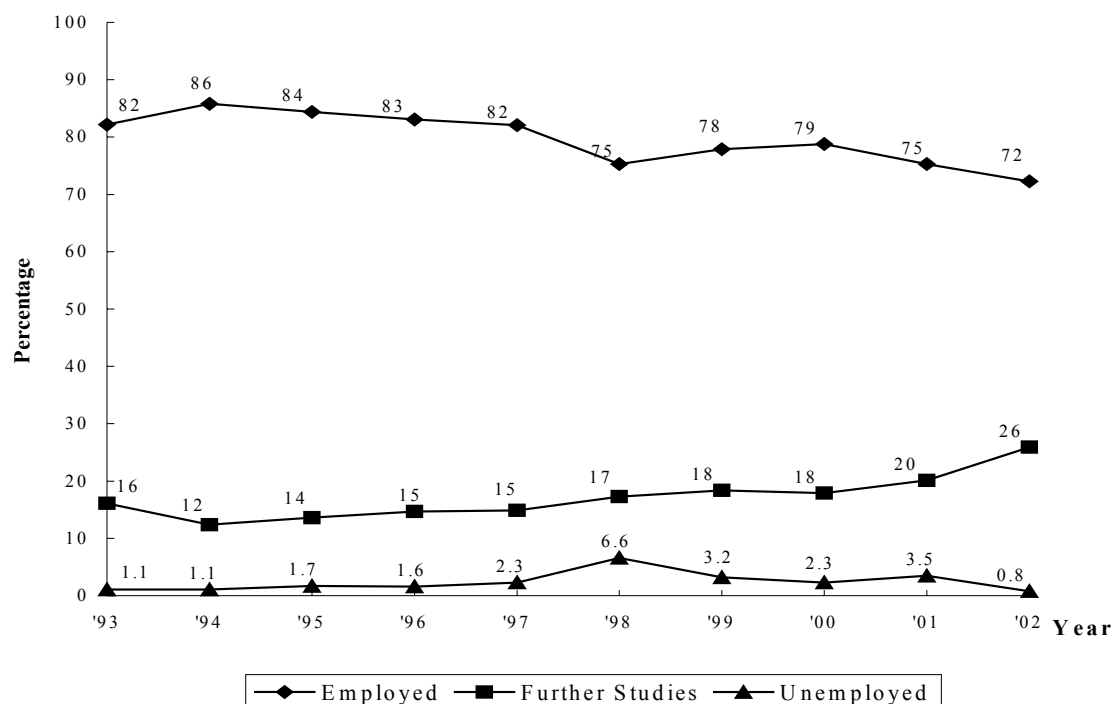

12. 95% of those who were employed secured their job offers by the end of October.

13. After the end of August, more graduates secured employment than the same period of last year. 58% of the employed graduates received more than one job offer, which is same as the previous year, and the average number of job offers is 2.1 jobs per graduate.

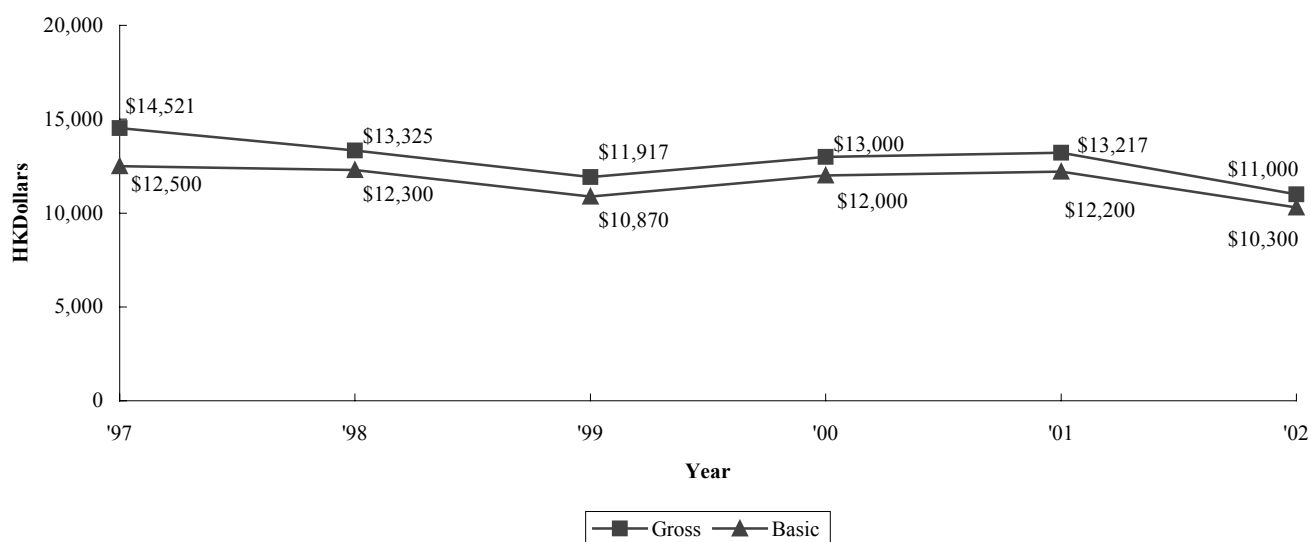

### III. Changes over the last ten years

14. Changes over the last ten years are shown in the following figures and table.

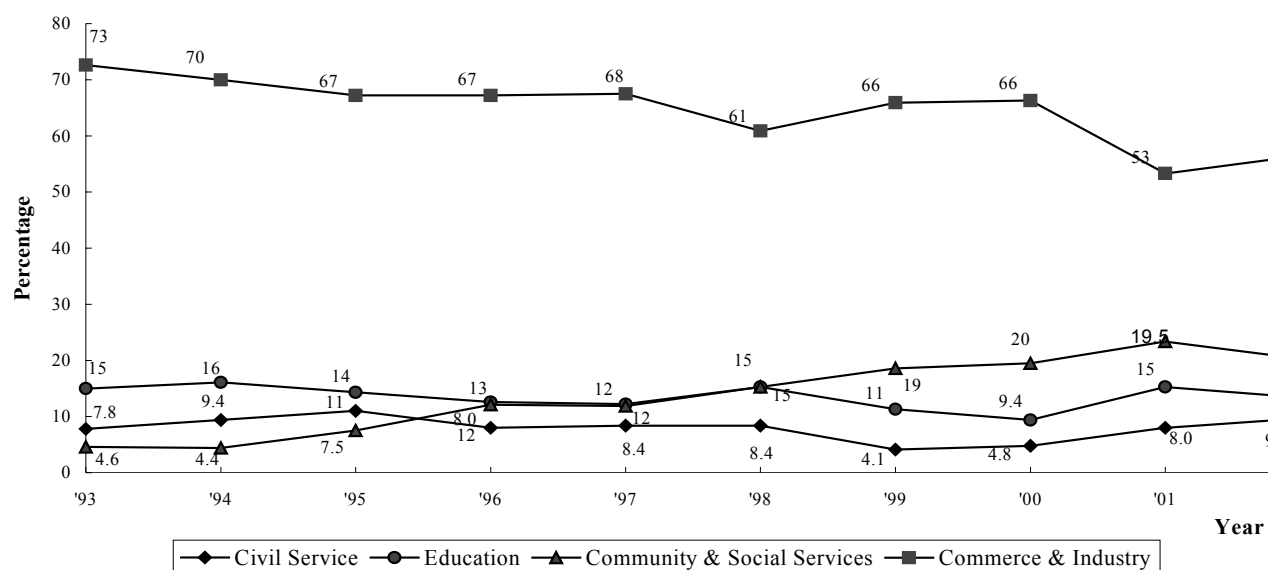

**Fig. 2. Employment situation 1993 - 2002**

**Fig. 3. Median gross/basic monthly income 1997 - 2002**
