*The University of Hong Kong*  
*Graduate Employment Survey, 2005*  
( *Bachelor's Degrees* )

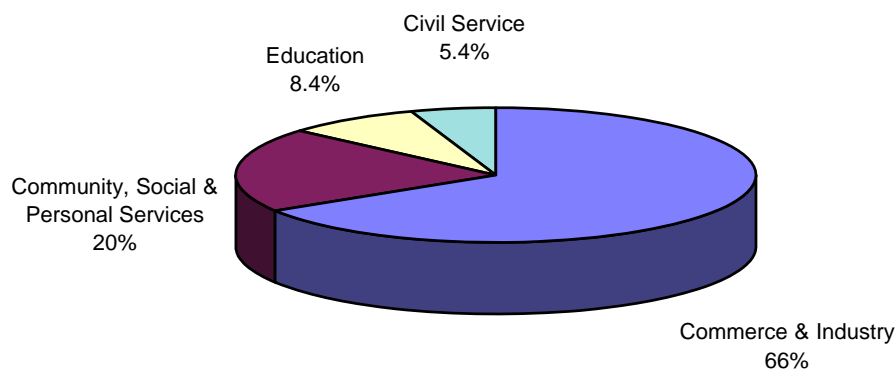

**I. Introduction**

1. This annual survey was conducted in late November, 2005 by post. Graduates who did not reply in writing were interviewed on the telephone. Through both means, information was obtained from 2,273 graduates, i.e. 86% of the graduating population of 2,643.
2. The situation reported by the respondents is as it was in December, 2005 or six months after graduation and covers all full-time Bachelor's Degree graduates. Degree programmes are classified into ten Faculties. These are: the Faculty of Architecture, Arts, Business and Economics, Dentistry, Education, Engineering, Law, Medicine, Science and Social Sciences.
3. In the appendices, readers will find information on:
  - . employment situations;
  - . distribution by employment sector;
  - . distribution by occupation;
  - . monthly income by employment sector;
  - . monthly income by occupation;
  - . major occupations by Faculty; and
  - . monthly income by Faculty.
4. Other information, such as job satisfaction, relevance of work to study, further study and detailed information about the situation of graduates in specific study programmes, is not presented here but is available on request.

## II. Situation in 2005

5. Unemployment rate increased from 0.3% in 2003 to 0.6% in 2004 and then decreased to 0.5% in 2005.
6. Half of this 0.5% (or 6 out of the 12 graduates) had in fact been successful in securing a job offer but declined to accept, or resigned from the post, to await better opportunities. Hence, the real unemployment rate is only 0.25%, or 6 persons.
7. The number of graduates pursuing further studies decreased by around 2% (20% in 2005).
8. Employment rate increased from 76% in 2004 to 79% in 2005.
9. Median monthly gross income increased by 7.4% from \$10,292 in 2004 to \$11,050 in 2005.
10. Commerce and industry continued to be the largest employment sector.

***Fig. 1. Employment sectors, 2005 Bachelor's Degree graduates***

11. The largest occupational groups in 2005 were:

. Engineers	11%
. Medical Doctors	6.2%
. Accountants/Auditors	6.8%
. Marketing/Sales Executives	5.8%
. Teachers	5.7%
. System Analysts/Computer Programmers	5.6%
. Architects/Surveyors	4.7%
. Nurses	4.1%

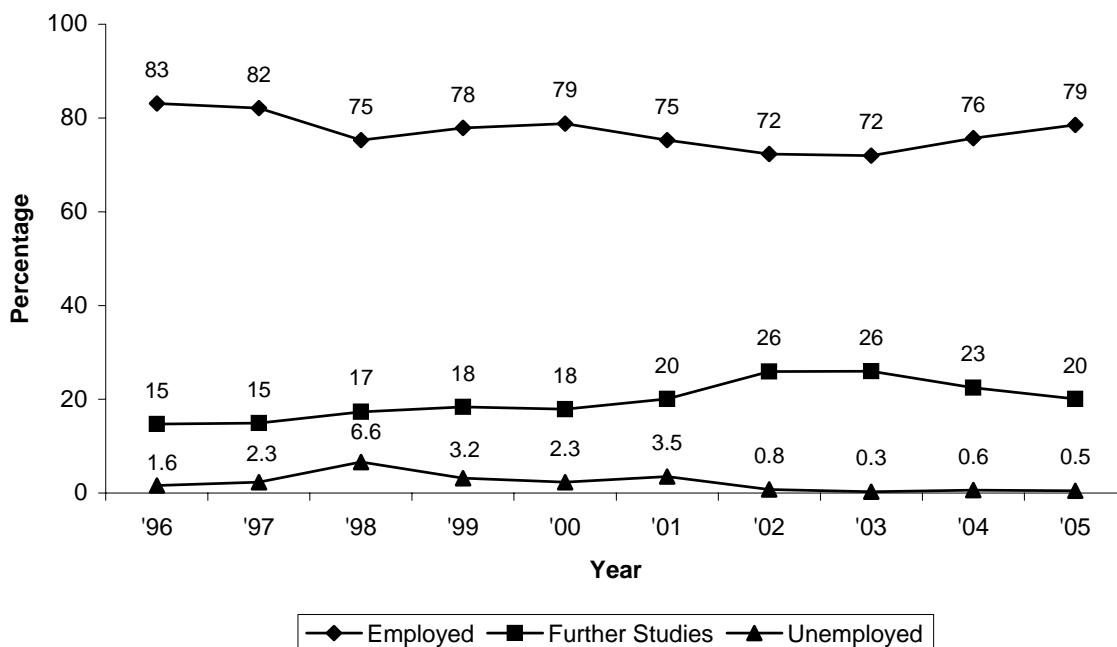

12. 97% of those who were employed secured their job offers by the end of October.

13. Less graduates secured employment compared with the same period of the previous year. 63% of the employed graduates received more than one job offer, which is about 3% more than that of the previous year, and the average number of job offers is 2.2 jobs per graduate, compared with 2.3 jobs per graduate in 2004.

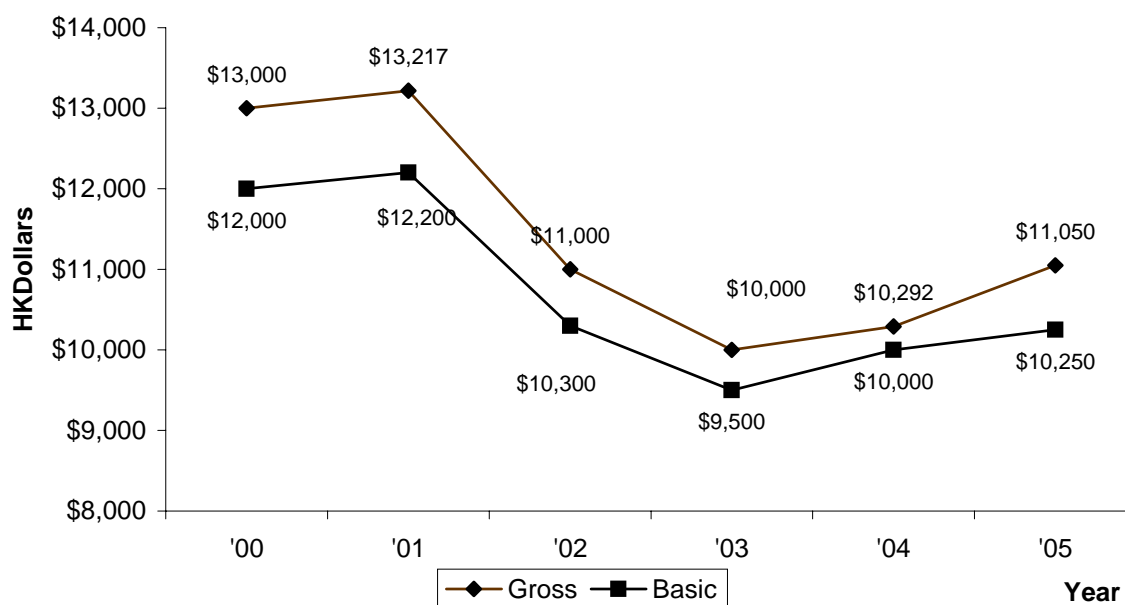

### III. Changes over the last ten years

14. Changes over the last ten years are shown in the following figures and table.
